

## ***Gas Booking System***

using PHP and MYSQL

The client uses MS Excel, and maintains their records, however it is not possible them to share the data from multiple system in multi user environment, there is lot of duplicate work, and chance of mistake. When the records are changed they need to update each and every excel file. There is no option to find and print previous saved records. There is no security; any body can access any report and sensitive data, also no reports to summary report. This Onile Gas Booking System is used to overcome the entire problem which they are facing currently, and making complete atomization of manual system to computerized system

A large, semi-transparent watermark of the Infosystems LPIT Software Solutions logo is overlaid on the bottom right of the text. It includes the word "Infosystems" in a large, bold, pink font and "LPIT Software Solutions" in a smaller blue font below it.
