

LIBRARY MANAGEMENT SYSTEM

using PHP and MYSQL

Library Management System handle the entire activity of a library. The software keeps track of all the information about the books in the library, their cost, their complete details and total number of books available in the Library. The user will find it easy in this automated system rather than using the manual writing system. The system contains a database where all the information will be stored safely. The system is user-friendly and error free.

A large, semi-transparent watermark of the Logicpro Infosystems LPIT Software Solutions logo is overlaid on the page. It consists of the text "Logicpro" in blue, "Infosystems" in red, and "LPIT Software Solutions" in blue below, with a stylized arrow pointing right to the right of the text.
