

## ***SOCIAL NETWORKING LIKE FACEBOOK***

using PHP and MYSQL

Facebook is a Website for social networking media. Its a platform for sharing our day-to-day life and thoughts by using electronic media. A totally new concept that is way ahead from the simple mail exchange by Yahoosmail and other mail servers. Now a days it's widely used for sharing some memorable movements of our life as-well-as business growth by photo sharing.

A large, semi-transparent watermark of the Logicpro Infosystems logo is overlaid on the page. It consists of the text 'Logicpro' in blue, 'Infosystems' in red, and 'LPIT Software Solutions' in blue below it, all to the left of a stylized arrow pointing right.
