

SCHOOL/COLLEGE TIME TABLE GENERATOR

using PHP and MYSQL

Most schools/Colleges face problems while generating a timetable that accommodates all subject classes and in order to make this task .The school/college timetable generator has been developed on a simplified user interface that allows users ease of access and a super fast response time. The school timetable software helps in managing classes and shares all combinations with teachers for their approval.

A large, semi-transparent watermark of the Logicpro Infosystems LPIT Software Solutions logo is overlaid on the text. It includes the text "Logicpro" in blue, "Infosystems" in red, and "LPIT Software Solutions" in blue below it, along with the stylized arrow graphic.
