

SCHOOL MANAGEMENT SYSTEM

using PHP and MYSQL

Education system forms the backbone of every nation. And hence it is important to provide a strong educational foundation to the young generation to ensure the development of open-minded global citizens securing the future for everyone. Advanced technology available today can play a crucial role in streamlining education-related processes to promote solidarity among students, teachers, parents and the school staff. School Management System consists of tasks such as registering students, attendance record keeping controlling absentees, producing report cards, producing official transcript, preparing timetable and producing different reports for teachers and parents.
